

Silicone Grease

Nonfood Compounds
Program Listed H1
Registration 145000

Special lubricant for valves, fittings and seals | drinking water approval | NSF registration | BAM

WEICON Silicone Grease is strong, transparent and shows very good compatibility to plastics. Due to its NSF H1 registration, WEICON Silicone Grease is suitable as lubricant in sensitive areas where inadvertent contact to food is possible. Complies with the Guideline for Hygienic Assessment of Organic Materials in Contact with Drinking Water (KTW Guideline) by the Federal Environment Agency. It can be used in the food and beverage industry, in sanitary and heating construction, in the pharmaceutical industry as well as in the sealing technology. WEICON Silicone Grease is BAM safety-tested - see leaflet 034-1 "List of non-metallic materials for use in oxygen" (DGUV information 213-075) of BG RCI. The grease is particularly material-friendly, neutral in odour and taste and has a temperature resistance of -50°C to +200°C.

WEICON Silicone Grease is suitable for the lubrication of plastics, rubber parts and seals, valves, fittings and gaskets, machines, equipment, slow rotating bearings and as assembly aid for O-rings.
